**Letter on the Joint Launch of the *China-ASEAN Industry-Education
Integration “Core” Initiative***

Dear Chengdu XUE ER SHI XING Education Consulting Co., Ltd. (Go Study Global Education),

In order to thoroughly implement the *ASEAN Community Vision 2045*, and to further promote in-depth cooperation between ASEAN countries and China in the field of vocational education, Southeast Asian Ministers of Education Organization Regional Centre for Technical Education Development (SEAMEO TED) emphasizes great importance to and fully supports the **China-ASEAN Industry-Education Integration “Core” Initiative**, which is jointly initiated by our Centre and the **Southeast Asia Youth Sustainable Development Foundation (PASITA)**.

The “Core” Initiative aims to build a forward-looking regional cooperation platform for industry-education integration. It will effectively facilitate the development of vocational education standards, curriculum design, resource sharing, and training base establishment across ASEAN countries. It will also support enterprises in achieving localized and sustainable talent development, while providing ASEAN youth with opportunities to enhance technical skills and broaden their career development prospects.

As one of the founding organizations, SEAMEO TED will actively participate in the organization and promote the initiative. Leveraging its role as an international bridge, SEAMEO TED will promote closer cooperation among Chinese higher education

institutions, ASEAN universities, and enterprises. We sincerely invite and call upon Chinese higher education institutions to actively apply for participation, and to join us in creating an open, shared, and win-win new framework for regional industry–education integration.

Best Regards,

Dr. SONGHEANG AI

DIRECTOR, SEAMEO TED
